Re: Letter of Supply

This Letter of Supply is in reference to (b) (4) the General Services Administration's Solicitation Number: 2FYB-BU-050001-B.

In the event that Caprice Electronics Inc. is awarded a Multiple Award Schedule (MAS) contract under the aforementioned solicitation (b) (4) can guarantee an uninterrupted source of supply, with sufficient quantities of product, for the duration of the base contract period (or option period).

(b) (4) understands that all products and services that are offered on MAS contracts must be compliant with the Trade Agreements Act (TAA) (19 U.S.C. 2501, *et seq.*) As such, all products supplied (b) (4) to Caprice Electronics Inc. will be TAA compliant. You will be notified immediately upon discovery of any changes in the Country of Origin of supplied products.

EPA/CPG:

(b) (4) understands that if they certify that the products being supplied meet or exceed the minimum content levels established under the Comprehensive Procurement Guidelines (CPGs) program then they **must** furnish Caprice Electronics Inc. Proof in the form of a copy of the certification from the manufacturer or a copy of the environmental organization's certification in order Caprice Electronics Inc. To be allowed to display the appropriate environmental attributes on their GSA contract. The percentage of the recovered materials and post-consumer materials must also be provided to the offeror/contractor.

(b) (4) understands that if no proof of the environmental attributes being claimed is provided then the offeror will not be allowed to display the applicable environmental attribute icon.

The EPA maintains a list of EPA-designated products in their CPGs to provide Federal agencies purchasing recommendations on specific products in several Recovered Materials Advisory Notices (RMANs). Each RMAN contains recommended recovered and post-consumer material content levels for the specific products designated by EPA (40 CFR part 247 and EO 13423: Strengthening Federal Environmental, Energy, and Transportation Management). Visit the CPG web site at <http://www.epa.gov/cpg> to view the current list of products that must comply with Comprehensive Procurement Guidelines (CPGs). Also, CPG supporting documentations and background information (such as RMANs) can be found at <http://epa.gov/cpg/backgrnd.htm>.

The person whose signature appears below is authorized to make the commitments noted above.

Sincerely,

(b) (6)
